Full-stack Laravel and JavaScript Developer with 4+ years of experience building and optimizing web applications. Skilled in Laravel, PHP, JavaScript (ES6+), Vue.js, React.js, and MySQL. Experienced in optimizing performance issues such as N+1 queries, building RESTful APIs, and deploying with CI/CD and Docker. Experienced in Agile development and effective remote collaboration across global teams.

WORK EXPERIENCE

Laravel and JavaScript Developer   8/2024 – Present
Ensiner   *Level-4, 73/H, Green Rd, Dhaka 1205*
Key Skills: (Laravel, JavaScript, jQuery, Vue.js, React.js, Git, CI/CD)   Hours per week: 40

- Developed and maintained scalable Laravel-based web applications, ensuring high performance, secure data handling, and RESTful API integrations.
- Designed dynamic and interactive front-end interfaces using JavaScript (ES6+), Vue.js, React.js and jQuery, improving user experience and engagement.
- Deployed applications using Docker and CI/CD pipelines (GitHub Actions) to staging and production environments.

Laravel and JavaScript Developer   6/2021 – 8/2024
Zaman It   *House 63, Road 13, Sector 10, Uttara, Dhaka 1230*
Key Skills: (PHP, Laravel, JavaScript, jQuery, Vue.js, React.js, Git, CI/CD)   Hours per week: 40

- Built and maintained full-stack web applications using Laravel, PHP, and modern JavaScript frameworks (Vue.js, React.js), delivering scalable, secure, and user-friendly solutions.
- Identified and resolved N+1 query issues by implementing Eloquent eager loading and query optimization techniques, improving database performance.
- Created and maintained CI/CD pipelines for automatic deployment and testing using tools such as GitHub Actions.
